

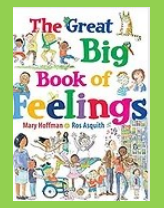
Reception—Knowledge Organiser (Autumn 1)

'All about me!'



Key Vocabulary

Family	A group of people united by blood or marriage.
Skeleton	A skeleton is **the hard structure that protects the internal organs of a living thing**.
Feelings and Emotions	Emotions are also called feelings - like **being happy or mad or scared**. You feel them because of what you see, hear, remember, and

Fun Fact

It is impossible to sneeze with your eyes open.

Key Facts

Senses	We all have 5 senses, sight, touch, smell, taste and hearing. You use these senses to receive information about the world around you.
Bones	Babies have more bones than adults. When babies are born, they have 300 bones. As you grow older, the bones fuse together as they finish growing.

When babies are born they can only see in black and white. Babies can see colour well by the age of 5 months.

Babies don't actually cry until they are at least one month old. Before then, they can scream and make lots of noise, but they can't shed tears

Interesting books to read.
