Year 1: Green Fingers

Subject Specific Vocabulary

buds	A bud is the part that grows up and holds the plant together.
bulbs	Bulbs store food for a plant and help it grow.
deciduous	Deciduous is the name given to trees that lose their leaves in autumn and are bare in the winter.
evergreen	Evergreen is the name of trees that have leaves all your round.
trunk	The trunk of a tree is the main part that grows from the ground to hold the tree sturdy.
vegetable	A vegetable is a plant or part of a plant which is used as food, for example cabbage or potato.
wild plants	These are plants that don't grow in our gardens and are self-seeded.
environment	The area where a plant or tree lives is its environment.
blossom	Blossom is the flower that comes before the fruit. For example, apple blossom comes before the apple starts to grow.
petals	A petal is a part of the flower and is usually coloured. The colour and its scent attract insects.
branches	Branches come from the tree trunk and grown outwards.
